

Within the automotive industry, O'Neal has a long-term track record with vehicle assembly and parts supplier clients. Three of the most prominent global automotive businesses turn to O'Neal for services in North America. BMW, Robert Bosch Corporation and Michelin use O'Neal as an ongoing resource for production, support, and administration project needs.

Over the past 26 years, O'Neal has performed a combined 2,000 projects for these three clients ranging from small, in-plant projects to major grassroots facilities.

Grounded in the requirements of the automotive industry, O'Neal people understand how to produce quality work within the speed and competitiveness of automotive markets.
